Where: Nottingham West Fields

When: April 19th 1-3pm

Why: Because its fun to recycle!!

Who: Boys and Girls, Moms and Dads,
Everyone from Hudson

Earth Day Party!

Let's Re-Use something around your house!

Our Earth Day Party is about Recycling and Re-using, along with having FUN! There are lots of things that can be re-used. Below are crafts & activities that will work best if you bring something from home. Sure, we'll have some on-hand items to re-use, but please try to bring your own supplies.

Cat owners: Bring an empty 2L soda bottle, or water bottle. Troop 252 will help you go home with a dish of 'cat grass' for your kitty!

Dog owners: Bring an old t-shirt and we'll show you how to turn it into a dog pull toy, with the help of some Alvirne students.

Girl Scouts will be showing you how to make a butterfly out of a coffee filter, and have fliers on fair trade.

Bring a used Dunkies cup and go home with a flower planted in it, compliments of Pack 252.

Troop 20's play station is an egg drop game – bring the following: An EGG! & paper egg carton, a grocery bag, bubble wrap, yarn and see if your egg survives the drop!

Bring a 2L (empty) soda bottle, cardboard for fins & nose cone, and make a water rocket!

Bring gently used Children's books, and swap for one you don't have! Or swap for one that is age appropriate for your child.

Bring Ni-Cad batteries, CFL bulbs, or fluorescent bulbs to be recycled. (Please be careful transporting them!)

Pack 21 is sponsoring Electronic Recycling. Bring your old TV (tube must not be broken), VCR, Computer, monitor, Laptop, printer, stereo, game system, cd player, phones, AC unit, microwaves, and for a reasonable fee, they will be correctly recycled. See the article in the Hudson-Litchfield News for details & prices.
