TOWN OF HUDSON

Board of Selectmen

Roger E. Coutu, Chairman Benjamin J. Nadeau, Vice-Chairman

12 School Street • Hudson, New Hampshire 03051 • Tel: 603-886-6000 • Fax: 603-598-6481

It is that time of year, again, when the Chairman of the Board of Selectmen is asked to submit a report for the annual Town Report. I've mulled over several topics to present to you but only one stands first and foremost in my mind.

We've all heard the sayings such as "it takes a village," or a "1,000 points of light," or "pay it forward." All are references to giving what you can to help your fellow man.

I think about this every day as I meet with you to discuss town issues, your families, your needs, concerns, etc. My wife Doris and I are so proud of our community because it is one which gives and gives and does so with so much generosity. I speak not so much about money but more of the generosity of time, time to serve on a Board or Commission, time to serve through service in a non-profit agency, time to serve in a Church group, and the list goes on.

The beneficiaries are youth in need and served with generosity from teachers who care; elderly needing companionship and love served by caring neighbors and friends; veterans who need someone to listen to what they have been through cared for by our American Legion and VFW posts; citizens who are in need of food, clothing, and services given by our firefighters, the food pantry, and the countless number of volunteers at the Hudson Fish and Game Club; youth who need guidance and care given by our police officers. Let us not forget the many non-profit agencies in town who give scholarships and assistance to our needy. I would be remiss if I did not mention those who are kind neighbors who take the time to assist a neighbor in need.

To all: you are so deserving of a **BIG**

THANK YOU!!!

Hudson is a great community because of you.

Hudson Board of Selectmen

Roger E. Coutu, Chairman

TOWN OF HUDSON

Office of the Assessor

Jim Michaud

Assistant Assessor, CAE

Email: jmichaud@hudsonnh.gov

www.hudsonnh.gov

12 School Street • Hudson, New Hampshire 03051 • Tel: 603-886-6009 • Fax: 603-594-1160

The year 2014 can best be classified as a year in which the overall real estate market finally left the most recent recession behind and the overall market experienced year-over-year appreciation. The volume of real estate sales transactions has continued to increase year-over-year, as well as significant new real estate construction and subdivision and site plan activity. The Town is now more than 2 plus years out from its last revaluation in 2012 and, from a budgetary perspective, the Board of Selectmen are continuing to fund for the next state-mandated reassessment effective for the 2017 property tax year. The Town has experienced two default budgets in a row, 3 out of the last 5 years, and that has marginalized the capacity to have more frequent readjustments of property assessments. These more frequent readjustments would have the practical and conservative effect of leveling out the amount of decrease or increase to property assessments in any given property tax year. More frequent reassessments would have enabled our community to level out inequities that are brought about by market activity, adjusted assessments that would reflect the complexities of real estate markets and the diverse effects that they have on property assessments of all classes of property.

In order for the Town to protect its tax base from being targeted by non-certified and unlicensed property tax reps, and in order to maintain its multi-year investments in assessment performance, the Board of Selectmen have continued to approve funding of defense of assessment initiatives in regards to property tax appeals in the NH judicial system. This is an important allocation of resources by the Board of Selectmen as the Assessing Department's continued success in this area will continue to serve to lessen the Town's property tax abatement overlay account exposure.

In closing, we would not be as responsive to your needs and questions without the valued assistance of Mike Pietraskiewicz, Assessment Technician, part-time Administrative Aide, Amy McMullen, as well part-time Appraisal Technician, Lisa Mudge. Their skills have saved both time and money for the Town's taxpayers before, during, and after the tax bills go out.

The department continues to provide quality, professional and timely service to the taxpayers that come into our office for help with applications for Elderly Exemptions, Veterans' Tax Credits, Disability Exemptions, etc., as well as to work on the myriad of processes that are part of the Assessing Department's responsibilities.

In summary, this department prides itself on providing the best service and support to its constituency, the taxpayers of Hudson. As always, the public is invited to visit our office to access the assessment data available on public access terminals. In addition, we have been able to continue internet access to both the Town's assessment database as well as property tax maps on the web to members of the general public, as well as those who may be homebound or not easily mobile. (Go to <http://www.hudsonnh.gov>).

The Department has been fortunate to have the support of the Board of Selectmen, the Town Administrator, other elected officials, all town departments as well as the citizens of the Town of Hudson over the past year. Thank you for the opportunity to assist you during the prior year.

Sincerely,

Jim Michaud, C.N.H.A., CAE, AAS
Assistant Assessor

EXEMPTIONS

Effective with the 1996 property tax year, the laws governing the various forms of property tax relief available to landowners had been standardized. Under the new process, taxpayers have until April 15th prior to the June tax bill to file an application for exemption, credit, or tax deferral.

Exemption for the Blind – RSA 72:37

1. Determined legally blind by the Administrator of Blind Services of the Vocational Rehabilitation Division of the State of New Hampshire Education Department.
2. Exempt each year on assessed value for property tax purposes of his/her residential real estate to the value of \$105,000 (approved March 13, 2007 Town Ballot Vote).

Exemption for the Elderly – RSA 72:39-a & b

1. Have to reside in the State of New Hampshire for at least three (3) years preceding April 1st in which the exemption is claimed.
2. Have a net income from all sources of less than \$35,000, if single, including Social Security, or if married, less than \$45,000, including Social Security. The net income shall be determined by deducting from all monies received, from any source including social security or pension payments, the amount of any of the following or the sum thereof:
 - (a) Life insurance paid on the death of an insured;
 - (b) Expenses and costs incurred in the course of conducting a business enterprise;
 - (c) Proceeds from the sale of assets
3. Applicant's net assets shall not exceed \$150,000, excluding the value of the person's actual residence. "Net assets" means the value of all assets, tangible and intangible, minus the value of all good faith encumbrances. "Residence" means the housing unit, and related structures such as an unattached garage or woodshed, which is the person's principal home, and which the person in good faith regards as his/her home to the exclusion of any other places where a person may temporarily live. "Residence" shall exclude attached dwelling units and unattached structures used or intended for commercial or other nonresidential purposes.
 - (a) Owned by the applicant; or
 - (b) Owned by the applicant jointly or in common with the resident's spouse, either of whom meets the age requirement for the exemption claimed; or
 - (c) Owned by the applicant joint or in common with a person not the applicant's spouse, if the applicant meets the applicable age requirements for the exemption claimed; or
 - (d) Owned by a resident, or the resident's spouse, either of whom meets the age requirement for the exemption claimed, and when they have been married to each other for at least five (5) years.
4. Additional requirements for an exemption under RSA 72:39-b shall be that the property is:
 - (a) Owned by the applicant; or
 - (b) Owned by the applicant jointly or in common with the resident's spouse, either of whom meets the age requirement for the exemption claimed; or
 - (c) Owned by the applicant joint or in common with a person not the applicant's spouse, if the applicant meets the applicable age requirements for the exemption claimed; or
 - (d) Owned by a resident, or the resident's spouse, either of whom meets the age requirement for the exemption claimed, and when they have been married to each other for at least five (5) years.
5. Is at least 65 years of age or older on or before April 1st. An exemption of \$105,000 for residents 65 years of age up to 75; \$125,000 from 75 years of age up to 80; and \$150,000 from 80 years of age and older is applied to the assessed value of the property. (Approved at Town Ballot Vote March 13, 2007.)

Exemption for the Disabled – RSA 72:37-b

1. Any person determined eligible under the federal Social Security Act for benefits to the totally and permanently disabled shall receive a yearly exemption in the amount of \$105,000 off of the assessed value of the residential property. Have to have resided in the State of New Hampshire for at least five (5) years preceding April 1st in which the exemption is claimed.
2. Have a net income, from all sources, of less than \$35,000 including Social Security. The net income shall be determined by deducting from all monies received, from any source including social security or pension payments, the amount of any of the following or the sum thereof:
 - (a) Life insurance paid on the death of an insured;
 - (b) Expenses and costs incurred in the course of conducting a business enterprise;
 - (c) Proceeds from the sale of assets
3. Applicant's net assets shall not exceed \$150,000, excluding the value of the person's actual residence. "Net assets" means the value of all assets, tangible and intangible, minus the value of all good faith encumbrances. "Residence" means the housing unit, and related structures such as an unattached garage or woodshed, which is the person's principal home, and which the person in good faith regards as his/her home to the exclusion of any other places where a person may temporarily live. "Residence" shall exclude attached dwelling units and unattached structures used or intended for commercial or other nonresidential purposes. (Approved at Town Ballot Vote on March 13, 2007.). Please contact the Assessing Department on the above for further details.

Veterans' Tax Credit – RSA 72:28

1. Have to be a resident of the State of New Hampshire for at least one (1) year previous to April 1st in the year which the credit is applied for.
2. Have to have served not less than ninety (90) active duty days in the Armed Forces of the United States in a war or conflict as outlined in RSA 72:28. The credit in the amount of \$500.00 is applied to the amount of taxes owed. A Disabled Veteran's Credit of \$2,000 is also available to a Veteran if he/she is rated totally and permanently disabled as a result of a service-connected injury. A copy of the DD214, a discharge paper and any other sufficient proof is required when applying for these credits. A credit of \$2,000 is also available to the surviving spouses of veterans killed in the line of duty. The Veteran's Credit was approved at a Town Ballot Vote on March 13, 2007. The Disabled Veteran's Credit and the Surviving Spouse Credit listed above was approved at a Town Ballot Vote on March 11, 2004. Please contact the Assessing Department on the above for further details.

Current Use

In order to encourage appreciation for the environment, conserve land and other resources, and to maintain open space, there are provisions for placing land in Current Use status where it is assessed at significantly lower values. Many requirements must be met and various restrictions do apply, including, in most cases, a 10 acre minimum requirement. If you desire to investigate further, you will want to look up RSA 79-A and/or also stop in the Assessing Department to get assistance. For more information regarding Current Use, Tax Assessing laws in the State of NH, please visit <http://www.nh.gov/revenue>.

SUMMARY INVENTORY OF VALUATION

Submit to the Department of Revenue Administration by September 1

Instructions

Note: for ease of use please begin at the last section and work backwards

REPORTS REQUIRED: RSA 21-J:34 as amended, provides for certification of valuations, appropriations, estimated revenues and such other information as the Department of Revenue Administration may require upon reports prescribed for that purpose.

NOTE: The values and figures provided represent the detailed values that are used in the city/towns tax assessments and sworn to uphold under Oath per RSA 75:7. Please complete all applicable pages and refer to the instructions for individual items.

For Assistance Please Contact:

DRA Municipal and Property Division
Phone: (603) 230-5950
<http://www.revenue.nh.gov/mun-prop/>

ENTITY'S INFORMATION

Entity Type: ☒ Municipality ☐ Village

Municipality: HUDSON

County:

HILLSBOROUGH

TOWN OF HUDSON

Benson Park Committee

Harry A. Schibanoff, Chairman Ben Nadeau, Selectmen Liaison

12 School Street • Hudson, New Hampshire 03051 • Tel: 603-886-6024 • Fax: 603-598-6481

Annual Report 2014

Benson Park continues to be a popular attraction in Hudson thanks to the dedicated work of numerous volunteers, the highway department and other town officials. Benson Park has been open for almost five years and will be celebrating its five years of operation in 2015.

Many events occurred in the park during 2014. In February, the annual dog sled race was held to benefit the construction of the Mallory Gray amphitheater. The amphitheater was erected in December with the assistance of the Highway Department. In March, an Easter egg hunt was sponsored by the Recreation Department and was well attended. In May, the new Senior Center and HCTV Access Center was opened. Both facilities are actively used and successful in their purposes. In June, a fishing derby for children under 14 was held by the NH Last Cast Fishing Club and was well attended. It is hoped that events of these kinds and others can continue in the future.

One Eagle Scout project was completed in 2014. It was the construction of dog agility equipment in the Dog Park. The project was completed during the summer and has been popular with the patrons of the Dog Park. The Girl Scouts completed their interior decorating of the "Shoe" in 2014 and had a large granite marker installed near the Shoe with quotes from its related nursery rhyme.

In May, the Highway Department removed interior fencing and grated, filled and seeded the area formerly occupied by the Red Barn. This change in the park was in an area that had previously been overgrown and unsightly. It now affords panoramic views of the park from the top of its hill and was a major park improvement in 2014.

During the summer, a Little Free Library was installed in the park. It is an opportunity for patrons to donate, swap or share books. The library was open until the end of October and was well received by the public. It is expected to return in 2015.

A major contribution and event within the park was TD Tree Day held October 1st. TD Bank along with the Alliance For Community Trees issued a grant to the park to plant 40 trees to not only improve the aesthetics in the park, but to also provide shade in the Dog Park and food for the wild life in the park. The event was successful and improved the area adjacent to the Dog Park and behind the new Senior Center.

Physical improvements were made in the park during the year. The "Shoe" received a new cedar roof and extensive repairs were made to the structure including a new secure front door. The exterior of the Elephant Barn received a face lift that has improved its appearance. This work was donated by the Friends of Benson Park and the labor was provided by the members of that group. In addition, plans are now being developed for the restoration of the "Office" in the park. This historical building requires various approvals and specific requirements for its improvement. This project is expected to take many years to complete. In addition, roof repairs are expected in early 2015 to the "A" frame and the re-location of the Train Station is, hopefully, a project that may see fruition in 2015.

Volunteers continue to be an important part of Benson Park's legacy. Volunteer clean ups were held from April through October with hundreds of volunteers participating over that time. In addition, we continue to have dedicated volunteers who work tirelessly on numerous park projects and to maintain the

parks extensive trail system. Benson Park would not be what it is today without the dedication of these volunteers.

Sincerely,

Harry A. Schibanoff
Chairman
Benson Park Committee

2014 Annual Report

Hudson Community Television reached a major milestone during 2014 with the opening of the brand new community television Access Center located at Benson Park. Construction and outfitting of the new space took almost a year to complete. Unlike our previous rented space on Old Derry Road, our new home was custom designed to serve as a television access center. It includes a much larger and well equipped studio and control room. Multiple editing rooms, offices, a conference room, storage rooms, a small kitchenette, and restrooms round out the facility. The space will serve as a base of operations for Hudson Community Television for many years to come. We invite all local residents to come down and visit. We're always ready to give a tour, answer questions, and encourage participation.

Planning for this new facility began many years ago. The original chairman and driving force behind Hudson's Cable Committee, Coleman Kelly, had the foresight to propose the establishment of a capital reserve account in 2001 for the purpose of saving money for just such a facility. For more than a decade portions of the money the town received from Comcast went into that account. It was those savings that were used to fund the construction of our new facility. NO tax dollars were used. It is, however, with deep sadness that I note the passing of Coleman Kelly late in 2014. It's a personal disappointment of mine that Coleman was not able to see the new facility that he dreamed of many years ago. In my early years on this committee Coleman served as a mentor and instilled in me the importance of having local access media resources available to our citizens.

The HCTV web site remains a popular resource to view live Internet streaming of our three local access channels as well as on-demand access to our library of local programming. This expands our availability to viewers who are not Comcast subscribers. Please visit our web site at www.HudsonCTV.com to view our programming online.

Jim McIntosh continues as our HCTV Facilitator. Jim's experience has been extremely helpful in bringing our new access center online. He continues to assist local residents with productions. Free training classes are available to anyone who wants to learn how to use any of the HCTV resources. Rob Fay, HCTV's part-time Assistant, works with Jim on the day to day operations of HCTV. His primary responsibility is to oversee the recording of all the government meetings in town as well as assisting with productions at the access center. Rob brings years of professional television production experience having worked at TV stations in Boston and New Hampshire.

The Cable Utility Committee and HCTV encourage the Hudson community to take advantage of the powerful and free communications medium that local access television affords. Anyone interested in producing a program, receiving training, or volunteering "behind the scenes" should contact the HCTV Access Center at 578-3959 or email us at HCTV@hudsonctv.com. The new Access Center is located at 19 Kimball Hill Rd. at Benson Park.

Michael O'Keefe
Chairman, Cable Utility Committee

2014 Town Cemeteries Spring Inspection Report

On Friday, April 25, 2014, the cemetery trustees assembled for the traditional annual spring inspection of the Town's cemeteries, beginning at Ford Cemetery off Musquash Road at 2:00 p.m. and then proceeding in turn to Blodgett Cemetery on Pelham Road, Center Cemetery on Central Street, Senter Cemetery on Old Derry Road, and the Poor Farm Cemetery off Twin Meadows Drive. The purpose of this annual inspection is to determine what damage has occurred to the cemeteries through the just-passed winter. In cases of minor damage (loose or tilted headstones), the trustees come back later to replant the stones; in cases of major damage (fallen or broken headstones), the trustees contract with a local monument firm for repairs as necessary. The following reports our findings of this date.

Ford Cemetery (off Musquash Road):

Ford Cemetery adjoins the site of the original meeting house (the home of Ensign John Snow, who is buried here), which was located between the cemetery and the roadway. It is surrounded by trees and is generally shaded & secluded.

#1 — Isaac Dowburn [Ford-51] (previously repaired), broken off from base. (West end)
Disposition: to be repaired by contractor.

#2 — George Connell [Ford-46] (stone is loose, simply sitting on base, and needs to be sealed in place).
Disposition: to be resealed by contractor

#3 — Footstone for Lucinda Sprague [Ford-14] (south-east end).
Disposition: to be reseatd by trustees.

#4 — Chipped footstone next to Mary Seavy [Ford-4a].
Disposition: to be cemented in by contractor.

Blodgett Cemetery (Pelham Road):

Blodgett Cemetery is next to where the original 1734 meeting house was located, now adjoining Nottingham West Elementary school. It is a pleasant open field, always in the sun but with a few shade trees remaining. Several boulders were noted to have been tumbled off the wall adjoining the sidewalk running along Pelham road, either as the result of winter storms or passing school children from Notting West elementary School. An effort will be made to get these replaced by DPW personnel/equipment.

#5 — Tilted headstone for Edward Field [Blodgett-41], next to wife, Anne (midway center)
Disposition: trustees will attempt to reseat.

#6 — Mary Marshall [Blodgett-88], next to husband, Benjamin.
Disposition: trustees will attempt to reseat, but may need new base installed to hold in place.

#7 — Fallen footstones behind headstones of Ann & James Page [Blodgett-65] (either side of Charles Page).
Disposition: trustees will reset.

#8 — Family marker for Melvin [Blodgett-121], badly tilted by frost-lifted rocks/ground (northeast corner).
Disposition: undecided; will discuss with contractor.

#9 — Disembodied footstone, leaning on northeast wall.
Disposition: trustees will attempt to relocate.

#10 — “NW” footstone near northwest corner.
Disposition: trustees will reset.

#11 — Headstone of Cordelia Chase [Blodgett-74], (sitting loose on base, needs to be refastened (center).
Disposition: to be remounted by contractor (probably needs new pins plus cement).

#12 — Unmarked footstone, placed atop north wall.
Disposition: undecided; trustees will attempt to determine appropriate location & reset.

#13 — Unidentified base, moved to northwest corner.
Disposition: undetermined.

#14 — Missing headstone to left of Reuben Winn
[Blodgett-39].
Disposition: undetermined (no stray headstone seen).

Center Cemetery (and Tenney Tomb), Central Street (Route 111):

Center Cemetery is an open plot, always in the sun but with shade trees at the entrance end.

#15 — Fallen headstone of Elizabeth Ann [Center-65?],
daughter of Lieutenant xx Spaulding (near front right).
Disposition: trustees will try to reseat; may need base.

#16 — Fallen footstone behind Mr. Sam Johnson
[Center-104] (midway on right)
Disposition: trustees will reseat.

#17 — Fallen stone in northeast corner.
Disposition: trustees will try to locate appropriately.

Senter Cemetery (off Old Derry Road):

Senter Cemetery is a rocky hillside next to where a mill used to be located. It is open to passersby and the weather, although bordered by trees on two sides.

#18 — Farley Eldridge headstone [Senter-3] loose; needs to be reseted. Accompanying fallen footstone needs to be reseted.

Disposition: trustees will reset.

#19 — Broken headstone of Lucy Greely [Senter-8], wife of Alfred Greely, top of hill.

Disposition: needs to be repaired by contractor.

#20 — Broken stone to right of Dustymony Greely [Senter-19c] (left side of hill).

Disposition: undetermined.

#21 — Two fallen footstones, beside & behind Dustyann Greely [Senter-19d], wife of Greely.

Disposition: trustees will reset.

#22 — Badly leaning stone on left slope.
Disposition: trustees will attempt to reseal.

#23 — White stone, leaning, at rear.
Disposition: trustees will reseal.

#24 — Fallen original hand-cut stone in front of Kidder.
Disposition: trustees will reseal in place.

Poor Farm Cemetery (off Twin Meadows Drive):

The Poor Farm Cemetery consists of a fenced-in area with a monument noting that 62 unidentified persons were buried in the area.

No issues were determined.

Summary:

Issues #1, #2, #4, #11, #19, and maybe #8 to be contracted.

All other issues will be attempted by trustees.

Respectfully submitted by J. Bradford Seabury, Bookkeeper

TOWN OF HUDSON

Engineering Department

12 School Street • Hudson, New Hampshire 03051 • Tel: 603-886-6000 • Fax: 603-816-1291

2014 ANNUAL REPORT

The Engineering Department experienced a year of change in 2014. I began working for the Town of Hudson in mid October. Gary Webster, past Town Engineer, continues to work in the department part-time while Doreena Stickney, Administrative Aide, works full time. Before my arrival, changes to the Land Use Division were made, which made the Town Engineer the Department Head of Engineering alone.

The ongoing function of the Engineering Department is to manage two broad categories of activities. The first is to provide technical support to the Town's governing bodies. These bodies include the Board of Selectmen, Planning Board, Municipal Utility Committee, Conservation Commission, and the Zoning Board of Adjustment. The second is to provide review and inspection of development projects.

The status of major projects and programs are as follows:

- **Industrial Discharge Agreement (IDA) Program:** Hudson conducts its own Industrial Pretreatment Monitoring Program, which is similar to and coordinated with the City of Nashua Industrial Pretreatment Program. CLD Consulting Engineers, Inc. (CLD) has been retained by the Town of Hudson to provide professional engineering services relative to the Industrial Pretreatment Program. CLD assists the Town in performing industrial site inspections, coordination of industrial sampling, compliance monitoring, issuance of permits, and communication with the State and Federal authorities.

There are currently 54 participants in the program. The owner or operator of any industrial or commercial establishment, public or privately owned, which discharges or intends to discharge wastewater within the Town of Hudson, must complete an application through the Engineering Department.

- **Water Supply Wells – Environmental Monitoring Program:** This monitoring program was established through a joint effort between the Town of Hudson and the New Hampshire Department of Environmental Services (NHDES), in order to maintain the long term functionality of the Hudson owned Dame/Ducharme wells (located in Litchfield) through the preservation of the Darrah Pond aquifer. This requires on-going measurement of groundwater elevations within existing monitoring wells drilled into the aquifer, as well as surface water elevation measurements at Darrah Pond. Three readings were done in 2014 and the results were forwarded to the NHDES for their records.
- **Water Utility Maintenance and Capital Improvements:** The aging infrastructure composing the Hudson Water Utility requires routine maintenance. As well, the system continues to expand as the demand of its users increases, requiring less frequent Capital Improvements. In 2014 the Engineering Department

managed the routine maintenance activities conducted by the system operator, Pennichuck Water Works. The Engineering Department manages the budget on behalf of the water utility, and updates the Municipal Utility Committee on a monthly basis. The Engineering Department applied for a REDC Grant for the Gordon Street storage tank state recommended improvements. The replacement of the Weinstein Well is underway and phase 3, the drilling of the new well, is scheduled for 2015. We have entered into a contract with Weston & Sampson Engineers to manage the design, permitting, and construction of the replacement well. The booster station at Woodland Heights was upgraded to support the additional flow demands from the nearby Oakridge Condominium project. In addition, the Hillendale booster station was decommissioned in December of 2014. SCADA upgrades are ongoing throughout the system, enhancing the system's communication with Pennichuck Water Works, who observes the systems performance continuously. The Route 102 Booster station project was completed at no cost to the town. This expansion brings water to a commercial end of Hudson, at no cost to the existing utility customers.

- Burns Hill Road landfill and West Road landfill: These are closed landfills that continue to be monitored in accordance with our Groundwater Management Permits through the NHDDES. The Engineering Department contracts with GZA GeoEnvironmental, Inc. for this monitoring and reporting. We are currently looking for developers that would be interested to install solar panels on Burns Hill Road landfill.

- NPDES Stormwater Program (MS4): The Clean Water Act authorizes states, which are delegated the authority by the USEPA, to regulate point sources that discharge pollutants into waters of the United States through the National Pollutant Discharge Elimination System (NPDES) permit program. The NPDES Program regulates discharges from municipal separate storm sewer systems (MS4s), construction activities, and industrial activities. The Town of Hudson is a MS4, and is therefore regulated under a permit issued in 2003. Annual reporting of our activities to comply with the permit is conducted by the Engineering Department. Many of the activities reported are conducted by the Highway Department.

In 2013, the EPA released a draft 2013 New Hampshire Small MS4 Permit. The draft permit requirements far exceed the requirements set forth in the 2003 permit. These requirements have the potential to cost the tax payers of Hudson a lot of money. The EPA has received comments from the affected communities and is tasked with responding to the individual concerns, which primarily focus on cost and timing. It is unclear when the final draft permit will be released and become effective, but when it does, the Town will be required to comply, and will be subject to administrative fines for non-compliance. Currently, the changes by the federal government regarding the new regulations have not been finalized as of December 2014.

In 2014, the Highway Department continued their street sweeping efforts, catch basin maintenance, and trash and hazardous waste collection activities, all in compliance with the 2003 permit. The Town Civil Engineer conducted routine inspections of all active construction projects, ensuring appropriate erosion controls were in place and maintained. As well, the Engineering Department has attended countless meetings with surrounding municipal engineers and public works directors, ensuring we receive the most up to date information available relative to the release of the pending permit revision. The Town of Hudson strictly enforces stormwater management requirements and strongly encourages compliance.

- Pelham Road Bridge over Second Brook: This project has been ongoing since 2006, and is on schedule for completion during the 2015 summer school vacation. It began following a major storm event, during which Pelham Road was overtopped by flood water from Second Brook. Only a 60" culvert exists in this location to move the brook beneath the roadway. Due to the amount of water that surcharges upstream of the culvert, this crossing has been classified as a high hazard dam by the NHDDES. In 2008, the Town voted to appropriate money to fix the dam. During the design and permitting process, however, the Board of

Selectmen, with help from the design consultant, CLD Consulting Engineers, decided to replace the dam with a bridge. This alternative poses less risk to upstream and downstream properties together.

The Town is fortunate to have been selected by the State Aid Bridge program, which pays 80% of design and construction fees for this project. Currently this project has been awarded to George R Cairns & Sons and construction will begin as soon as school lets out for the summer 2015.

- Hudson Train Depot Relocation and Restoration: This project was kick-started during 2012, and is scheduled for completion in 2015. The project entails relocating the existing Train Depot within Benson Park, now situated on temporary blocking, to a permanent foundation. As well, the project will restore the exterior of the building to its historic appearance. The project received Transportation Enhancement grant funding from the Federal Highway Administration, which pays 80% of engineering and construction costs. The Engineering Department is managing the project and serves as the liaison between the Board of Selectmen, and the design consultants. As well, the Engineering Department prepares and submits reimbursement requests to the DOT as bills are paid to consultants. The Engineering study and preliminary plans have been reviewed and approved by the NHDOT. We have also concluded the environmental and cultural resources review with the State and the Federal Highway Administration. Final plans are being prepared currently for final submission on January 16, 2015. In late winter, January and February 2015, we expect to competitively bid the construction, and we hope that work will commence during the summer of 2015.
- Library Park Signalized Intersection Improvement Project: Congestion, Mitigation, and Air Quality grant funding through the NHDOT was received for this project, which pays 80% of the design and construction costs. CLD Consulting Engineers, Inc. are serving as the designers of the project, which entails paving, restriping, sidewalk and ramp improvements, and signal improvements around the Library Park intersection. A second through lane will be added to Derry Street, over the bridge to Nashua, which will help relieve traffic congestion in that direction. The Engineering Department is managing the project, which is now in the final design phase with the NHDOT. This project has currently been reviewed by the NHDOT and we expect that the construction will be competitively bid, and work will commence in the summer of 2015.
- Zachary Tompkins Memorial Field Asbestos Relocation and Remediation: I served as the lead overseer of this project during the months of October through December. 100% of the funding for this project came from USEPA Brownfields grant money, administered by the NHDES, the Regional Economic Development Center (REDC), and the Capital Regional Development Council (CRDC). The Engineering Department reviewed and processed all applications for payment and submitted reimbursement requests, as necessary, to the various agencies listed above.

Currently, we are in the final stages of receiving the final letter from the NHDES regarding sealing the site. The town used Brox Industries this fall to install 2.5 inches of asphalt over cell two and is expected to install an additional 1.5 inches in the spring of 2015. In addition, we have received \$100,000 from the City of Nashua for additional Brownfields funding, which will complete the asbestos project phase. In the spring, we expect the work associated with sealing the site to be complete and at that point, the site will be turned over to the Zachary Tompkins Memorial Foundation so that construction of Zach's field may commence. I want to give a special thanks to the Road Agent and his staff, Civil Engineer Gary Webster, and Brox Industries for their support throughout the project.
- Hudson Senior/HCTV Access Center: This project was completed before my arrival and has been a great success. Currently, a generator is planned for installation during the summer of 2015. Also, in November

of 2014, a gazebo foundation and slab was installed before the gazebo was put together by the highway department on December of 2014.

- The Engineering Department is currently managing for the Town approximately \$850,000 in performance surety and Letters of Credit relating to residential and commercial developments.
- The Engineering Department has taken in, processed and inspected the following permits:

- 12	Driveway permits
- 43	Water permits
- 51	Sewer permits (commercial and residential)
- 17	IDA (Industrial Discharge Agreement) Applications/Permit Modifications

The Engineering Department has two (2) full time employees, and one (1) part-time employee. As well, the Clerk of the Works for the Senior Center project falls under the general supervision of the Town Engineer. This winter, the Engineering Department hired two summer interns. They continued the work started in summers past and were able to update and complete Town wide sewer, water, and drainage system maps. These maps provide easy reference for us, the Highway Department, and any applicants for new development. The Stormwater mapping will prove invaluable upon release of the final draft General Permit described in my text above. The Town of Hudson benefits greatly for a very low cost from our college interns. We have managed to create master plans for asbestos, water, sewer, drainage and gas for the entire town and have shared information internally with the Fire and Highway Departments. Our team also continues to work closely with and provide support to the Planning, Zoning, Code Enforcement and Inspectional Services Departments, as well as the Conservation Commission.

The year 2014 was very successful for the Engineering Department. The year 2015 should prove equally successful with the completion of the Pelham Road bridge project, the Hudson Train Depot project, Zack's Field site seal completion and the Library Park Intersection improvement project. Following completion of those projects, our focus will shift toward other important improvement projects including several bridge and culvert replacement projects, sewer, and water utility improvements. We thank the Board of Selectmen and the tax payers of Hudson for your continued support of this important office.

Respectfully submitted,

Elvira Dhima, PE.

TOWN OF HUDSON

Conservation Commission

Jim Battis, Chairman

Nancy Brucker, Selectmen Liaison

12 School Street • Hudson, New Hampshire 03051 • Tel: 603-886-6008 • Fax: 603-816-1291

Annual Report for 2014

The Conservation Commission was established by the town for the proper utilization and protection of the natural resources and for the protection of watershed resources of the town. The activities of the commission include:

1. The review of all requests for Wetland Special Exceptions submitted to Zoning Board of Adjustment (ZBA) for determination.
2. Research into local land and water areas and recommends to the selectmen for the protection, development or better utilization of all such areas.
3. The coordination of activities of unofficial bodies organized for similar purposes.

The activities of the Commission during calendar year 2014 are summarized in the following sections:

Wetland Special Exception Reviews

During this past calendar year five Wetland Special Exception applications were reviewed by the Conservation Commission:

2014 Wetland Special Exception Reviews

Date	Map-Lot	Address	Favorable Recommendation		
			For	Opposed	Abstain
01/13/14	246-005	16 Chalifoux Road	0	4	0
01/13/14	144-021	4 Bokes Road	4	0	0
07/14/14	186-024-4 194-010 195-001 201-007	White Service Road and Kara's Crossing Drive	4	0	0
07/14/14	128-007 & 008	300 Webster Street	4	0	0
07/14/14	222-018	220 Lowell Road	4		

Stewardship of Lands

The Conservation Commission is charged with management of Town conservation lands. In 2014 the Commission coordinated the efforts of volunteers to improve the hiking trail systems in the Musquash Conservation Land and the Town Forest. Over the past year volunteer efforts constructed one new trail and completed several maintenance projects at the Musquash Conservation Land and a loop trail system was developed at the Town Forest. As part of these improvements, additional GPS mapping of the trails at Musquash and the Town Forest was performed by volunteers. Work continued to improve trail markings within the Town owned lands and to create trail maps to increase public awareness of the recreational assets within the Town's Conservation properties.

Finally, members of the Commission fulfilled the Town's commitments to the New Hampshire Land Conservation Investment Program and the New Hampshire Department of Environmental Services Water Supply

Land Conservation Grant Program by conducting annual mandated stewardship inspections of the Musquash Conservation Lands and of the Ingersoll Tri-Town Tree Farm located off Bockes and Griffin Roads.

Exotic Aquatic Plant Control

The Conservation Commission funds the exotic aquatic plant control efforts at Ottamie and Robinson Pond. These efforts include the Lake Host Program that attempts to educate the boaters using these ponds on the steps to prevent the transfer of exotic plants into or out of these ponds and active control efforts, partially subsidized by the New Hampshire Department of Environmental Services (NHDES) including Diver Assisted Suction Harvesting (DASH) and herbicide treatments. A survey by NHDES in September 2013, following an initial herbicide treatment at Robinson Pond, showed an approximate 90% reduction of fanwort infestation at Robinson Pond. As recommended by NHDES, a second application of Clipper was conducted at Robinson Pond in 2014. A survey conducted by DES and result from a DASH campaign during the fall of 2014 indicated further significant reduction in invasive plants at Robinson Pond and their isolation to small pockets of plants. Following the treatment, the Lake Hosts reported no incidence of invasive plants being detected on boats or trailers coming from Robinson Pond.

Ottamie Pond was not treated in 2013. Unfortunately this allowed the fanwort and milfoil at Ottamie Pond to aggressively infest this pond. The Conservation Commission advanced the first planned treatment at Ottamie Pond into 2014 using funding, in part, from the Conservation Fund. Although not as obvious as the first Robinson pond treatment, the treatment at Ottamie Pond in June 2014 did have significant adverse effect on the invasive plant population at the pond and it hoped that a second treatment in 2015 will mitigate the problem at this pond.

Circumferential Corridor Evaluation

The Conservation Commission conducted a series of four site walks during 2013 along the Nashua-Hudson Circumferential Highway right-of-way between Lowell Road and NH Route 111. These walks were in response to a request to provide input to the Planning Board on environmentally sensitive areas in the corridor that could affect the future design of a proposed roadway using the existing right-of-way. A memorandum was forwarded to the Planning Board, with copies to the Board of Selectmen, in February 2014.

Lower Merrimack River Local Advisory Committee (LMRLAC)

2014 Annual Report

The Lower Merrimack River Local Advisory Committee (LMRLAC) was created in 1990 after the Lower Merrimack was designated a protected river in the State of NH. The Lower Merrimack River Corridor, which extends shoreward ¼ mile in the Towns of Hudson, Litchfield and Merrimack, and the City of Nashua, is managed and protected under RSA 483 in accordance with the State's Rivers Management and Protection Program (RMPP).

Members of the LMRLAC are nominated by each riverfront municipality and are approved by the State's DES Commissioner. Representatives come from a broad range of interests, including but not limited to local government, business, conservation, recreation, agriculture, and riparian landowners. All members are volunteers. This diversity helps bring a variety of perspectives to bear on resource protection and development issues.

The main responsibilities of the LACs are:

- 1) Develop and implement a local river corridor management plan (CMP),
- 2) Advise local, state and federal governing bodies and agencies and developers of potential activities which may affect the water quality or flow of the protected river or segment, and
- 3) Review and comment on any prospective federal, state or local plans for projects within the Corridor that would alter the resource values and characteristics for which the river or segment is designated, including recreational and scenic values.

Members:

Gene Porter (Chair) – Nashua (Appointed and elected Chair in 2014)

Michael Redding - Merrimack

Karen Archambault (Secretary) -- Nashua

George May – Merrimack

Nelson Disco (Vice Chair) – Merrimack

Michael Croteau (Treasurer) – Litchfield

Christine Dupree –Hudson (Appointed 2014)

Rick LeBourdais – Hudson (Appointed 2014)

Meetings are held at the Nashua Public Library on the 4th Thursday of the month at 7pm

We encourage new membership. Applications and additional information can be found at

<http://www.nashuarpc.org/about/related-organizations/lmrlac>

2014 Activities

In 2014 LMRLAC commented to owners, developers, local boards and the DES on several permit applications for projects ON the River Corridor. Improved stormwater management practices were encouraged as well as greater public access to the river, both for boats and for viewing.

The major projects reviewed were two riverside residential developments on the eastern shore. Phase IV of the Sparkling River Project in Hudson was judged reasonably well planned with regard to drainage, but lacking in provisions for boat access and shoreside trails. The new smaller Autumn Circle development on the Hudson/Litchfield line envisions ten new lots, with one on the riverfront. The latter was noted to include a legacy

ramp to the River but the LMRLAC's recommendation that provision be made for public access at that point was not accepted by the developer, the Hudson Planning Board or the DES. The DES noted that they do not have authority to require provisions for trails or public access easements as a condition for approval of shoreline construction projects.

Formal comments were submitted on three other projects, none of which raised substantial concerns about water quality or public access.

During the year it was noted that the timing of notification to the LMRLAC of prospective projects was dominated by the formal permitting process of the State DES. The details of this notification and review process were the subject of several DES-sponsored workshops during the Fall which were attended by two or more LMRLAC members. The result was an action plan at DES to improve the coherence of the process and to try to standardize the response times required by the various permitting offices.

Nevertheless, it became apparent during the year that waiting for the formal DES permit application notification process to kick in frequently resulted in the LMRLAC not being able to be fully effective in meeting its advisory responsibilities. Of particular note was the observation that owners, developers and municipalities have an obligation under RSA 483 to notify the LACs anytime future projects in the Corridor are being considered – an obligation that is not generally understood. Consequently the LMRLAC is preparing an updated "outreach" briefing on this topic that is intended to be used by members during 2015 to educate and encourage municipalities and developers to provide more timely involvement of the LMRLAC in shoreline project planning.

Several other topics were addressed during 2014.

Nashua's Independence Rowing Club informally briefed on their plans to convert their shoreline trailer storage pad to a clubhouse, and were advised to seek DES and City permits.

The State project manager for the remediation of the creosote seepage into the River in Nashua's North End updated the LMRLAC on the current monitoring program that is a precursor to the construction of a new retaining wall, hopefully to start in 2015.

The LMRLAC commented on the NRPC's new Draft Regional Plan. The three major comments were accepted by the Commission at their formal review meeting.

The State's Public Water Access Advisory Board took note of the lack of public access to the 10 miles of navigable river in NH that is the Lower Merrimack and initiated a review of options such as the needed upgrade of the Greeley Park ramp in Nashua. In that regard it was noted that the pending installation of crest gate head pond level controls on the Pawtucket Dam in Lowell MA would help stabilize the level of the Lower Merrimack and make it even more attractive to the public.

Greater public access to, and use of, the Lower Merrimack River is a prerequisite for greater public involvement in, and support of, needed protection activities.

TOWN OF HUDSON

Finance Department

12 School Street • Hudson, New Hampshire 03051 • Tel: 603-886-6000 • Fax: 603-881-3944

The Town of Hudson Finance Department is responsible for the financial operations and records of the Town. The department responsibilities include: Accounts Payable, Accounts Receivable, Payroll, Purchasing, Water Utility, Human Services, Budgeting and Financial Reporting. We provide financial services, information and training to elected officials, employees, citizens and volunteers of Hudson. I am pleased to report, that Fiscal Year 2014 ended in good financial condition with stable fund balances. The elected officials and Town staff continue to take steps ensuring that the Town will be able to maintain the current level of services that are essential to the citizens of Hudson while maintaining a prudent management of operations on a default budget. For an accurate and complete accounting of the Town's financial records, please see the Audit section of this report for Fiscal Year 2014 year end results.

The employees that support the Finance department are a dedicated team that serves the Board of Selectmen, Town employees, the citizens and volunteers of Hudson. Lisa Labrie has been the Town Accountant for over 11 years. Lisa has the responsibility for maintaining the Town's ledgers, which provide a detailed accounting of all revenues and expenditures incurred by the Town. Lisa also maintains the accounting ledgers for the Sewer Utility, Water Utility and all other Special Revenue funds. She is responsible for the payroll reporting for the town. Barbara Doyle is the Senior Accounting Clerk who joined the department a little over two years ago. Barb is responsible for the processing of weekly payroll and processing the Town's Accounts Payable. Kathleen Wilson is the Human Services Specialist and has worked for the Town for over 18 years, the longest employee in the Finance department. Kathy handles the department's administrative tasks, processing cash receipts and administering personnel benefits. Kathy also has the responsibility of the Town Welfare program. In tough times this part of her job becomes challenging. She continues to show compassion and understanding. She applies consistent and fair judgment. Kathy relies on strong networking and tribal knowledge to assist her in being fair and consistent. The Finance department is utilized by employees, Department Heads, elected officials, boards, committees and residents.

The Town of Hudson's Water Utility billing and customer service functions are handled by Valerie Marquez and Barbara O'Brien. Valerie is the full-time Water Utility Clerk and she is responsible for billing and coordinating collection efforts. Barbara is the part-time Water Utility Clerk and she is responsible for cash management and customer service. Valerie and Barbara continue to work aggressively on collections. The Water Utility bills approximately 6,200 customers monthly. Valerie and Barbara continuously review the Water policies and procedures and make recommendations for improvement. They have also been working on online and credit card payment options which started in the Spring of 2014.

I want to thank the employees of the Finance department for their dedication and commitment to the roles they hold. I would also like to thank my fellow Department Heads for their dedication to the Town and support to the Finance and Water departments.

Respectfully submitted on behalf of the Finance Department,

Kathryn Carpenter
Finance Director

Robert M. Buxton
Chief of Department

HUDSON FIRE DEPARTMENT 2014 ANNUAL REPORT To the Town of Hudson

Submitted by
Fire Chief Robert M. Buxton

The Hudson Fire Department is pleased to present to you, the Citizens of Hudson, this Annual Report on your Fire Department's activities and progress for 2014.

The mission of the Hudson Fire Department is to preserve life, property and the environment from man made and natural disasters while providing emergency medical services, fire and rescue operations, communications, public education and fire prevention programs. This mission statement reflects both of our emergency and non-emergency values that we commit to provide for you, the Citizens of Hudson, in order for you to have a safe community to live and work in.

The Hudson Fire Department supports this mission statement through the utilization of an efficient break down of responsibilities into four major divisions. These divisions are Fire Administration, Building and Life Safety, EMS and Training, and Operations.

Fire Administration

The Fire Administration is responsible for all administrative, planning and coordination of the Hudson Fire Department. In 2014 we completed several projects to maintain our operation and continue to deliver appropriate services to the Town of Hudson.

2014 was a year of reorganization for the Hudson Fire Department. In an effort to accomplish our number one goal of efficient and effective delivery of emergency services, the department reorganized to allow for the opening of the Robinson Road Station 24/7/365. This goal could not have been accomplished without the support of the members of the Hudson Fire Department, Board of Selectmen and the continued support of the citizens of Hudson. We are delivering a consistent response model, providing improved response times and better access to our emergency services system.

As Fire Chief, I look forward to another year of working with the members of the Hudson Fire Department, Hudson Board of Selectmen and the citizens of Hudson as we continue to meet the challenges of the ever changing landscape of emergency services within the Town of Hudson. Over the next year we will continue to identify funding sources outside the Town of Hudson to assist with supporting our safety programs. We will strive to continue delivering cost effective services and improve our cost effectiveness through the utilization of technology.

Building and Life Safety

The area of Inspectional Services has undergone another tremendous change this past year. The Board of Selectmen tasked the Fire Chief with merging the Zoning/Code Enforcement and Health into the already new Inspectional Services Division.

The Inspectional Services Division is housed in Town Hall in the Community Development area, along with the Land Use Division. By merging Zoning/Code Enforcement and Health into the Inspectional Services Division we have been able to further streamline the public's inspectional services needs to include a consistent and timely delivery of zoning and code enforcement services.

Emergency Medical Services and Training

The EMS and Training Division is responsible for the planning and administration of our Emergency Medical Services delivery and the credentialing of our staff. The division is very busy with the constant review of our service delivery, response models, skill development and proficiency training for all fire department divisions.

Operations Division

The Operations Division is the largest division, with 47 personnel who are responsible for responding to all emergency service requests for the Town of Hudson.

We are fortunate to have this division supervised by a very experienced team. The Town of Hudson continues to see a changing trend in the emergency services area. The Fire Department is responsible for several different areas including fire, emergency medical services, hazardous materials, auto rescue and all other technical rescue incidents.

The Fire Department continues to train its staff to be able to handle several different areas of emergency response and we continue to challenge our employees to develop their skill sets and stay current with new techniques. The department is transitioning to an all hazards department due to the ever changing landscape of emergency requests.

The department's Communication Division is on the front line supporting our field personnel. They are the first contact most citizens have during a time of need. The employees of this division receive specialized training in the area of communications and the handling of all emergency calls for service received by the department. We continue to maintain and look for ways to enhance our communication system in order to increase employee safety and service delivery.

The Fire Department said good bye to several employees in 2014:

- Call Firefighters Brian Alley, Matthew Emanuelson, Kevin Maier, Corey Morin and Brian Surette left the Hudson Fire Department to pursue other professional opportunities. We wish them all a successful future.
- Firefighter Dean Sulin retired from the Fire Department Operations Division in October. We thank him for his years of service and wish him well in his retirement.
- Dispatcher Gayle Robertson retired from the Fire Department Communications Division in November. We thank her for her years of service and wish her well in all of her future endeavors.

I would like to take a minute and thank all of the members of the Operations Division for their continued support and efforts to keep the Town of Hudson safe.

Emergency Management Division

The Emergency Management Division consists of representatives from all departments within the Town of Hudson. These representatives make up the Emergency Management Team.

The responsibility of this team is outlined in the Town of Hudson Emergency Operations Plan. This plan is formatted in a manner that clearly outlines the roles and responsibilities of each team member and is continually reviewed and updated to make sure that it is kept current.

We continue to maintain our working relationship with the Division of Home Land Security/Emergency Management for operational effectiveness. We also continue to identify potential grant funding options that will assist us with plan maintenance and exercise funding.

I would like to thank Chairman Coutu, Deputy Emergency Management Director Lavoie, the Town Administrator, all Town Departments, and the members of the Emergency Management team for their continued support and efforts during the last year.

Goals and Objectives for 2015

- Continue to provide cost effective services to the citizens of the Town of Hudson.
- Continue to improve our cost effectiveness through the utilization of technology.
- Continue to identify grant funding opportunities to maintain our operational needs.
- Implement a long term planning program for the Fire Department.
- Continue to ensure that our practices meet best industry standards.
- Continue to maintain a safe and effective working environment for the employees and the citizens of the Town of Hudson.

Summary

The Fire Department is committed to meeting the challenges of the future. We've had a productive year and are very excited about what the future holds for us. Our success organizationally is set on two items:

First, the continued support from the citizens of Hudson. We would like to thank you, without your support our mission could not be accomplished.

Second, we're also thankful for our dedicated employees. Their continued dedication to the Town of Hudson is second to none. They continue to meet each challenge with a positive can do attitude. Organizationally we are very fortunate for our employee base and we look forward to their assistance with moving the department forward.

On behalf of all of the members of the Hudson Fire Department, I would like to thank the Board of Selectmen, Town Administrator, Fire Department Liaison Richard Maddox, all Town Departments, the families and friends of our employees, and the citizens and businesses of Hudson for their continued support in making this past year a safe and successful one for all of us.

Respectfully Submitted,

Robert M. Buxton, Fire Chief

Report of Forest Fire Warden and State Forest Ranger

Your local Forest Fire Warden, Chief Robert M. Buxton, and the State of New Hampshire Division of Forests & Lands, work collaboratively to reduce the risk and frequency of wild land fires in New Hampshire. To help us assist you, please contact your local Forest Fire Warden or Fire Department to determine if a permit is required before doing ANY outside burning. Under State law (RSA 227-L:17) a fire permit is required for all outside burning, unless the ground is completely covered with snow. The New Hampshire Department of Environmental Services also prohibits the open burning of household waste. Citizens are encouraged to contact the local fire department or DES at 603-271-1370 or www.des.state.nh.us for more information. Safe open burning requires diligence and responsibility. Help us to protect New Hampshire's forest resources. For more information please contact the Division of Forests & Lands at (603) 271-2214, or online at www.nhdfi.org.

This past fire season started in early April with the first reported fire on April 7th. April, which is the traditional start to our spring fire season, began very dry with unseasonably dry conditions continuing through the entire month. This dry pattern continued through the first half of May. 80% of our reported fires this season occurred during this six week period. The largest fire was 24 acres, occurring in the town of Tamworth. From mid May through early September, above average rainfall kept our total acreage burned statewide at 72 acres. This is the smallest amount of acreage burned statewide in several years. Late August through late September though brought a dry trend to northern areas, resulting in several deep-burning remote fires. Our fire danger days correlated well with the days that there were fires actually reported. The statewide system of 16 fire lookout towers continues to operate on Class III or higher fire danger days. Our fire lookouts are credited with keeping most fires small and saving several structures due to their quick and accurate spotting capabilities. The towers fire spotting capability was supplemented by the NH Civil Air Patrol when the fire danger was especially high. Many homes in New Hampshire are located in the wild land urban interface, which is the area where homes and flammable wild land fuels intermix. Several of the fires during the 2014 season threatened structures, and a few structures were burned, a constant reminder that forest fires burn more than just trees. Homeowners should take measures to prevent a wild land fire from spreading to their home. Precautions include keeping your roof and gutters clear of leaves and pine needles, and maintaining adequate green space around your home free of flammable materials. Additional information and homeowner recommendations are available at www.firewise.org. Please help Smokey Bear, your local fire department, and the state's Forest Rangers by being fire wise and fire safe!

As always, fiscal year 2014 was a busy and productive year. With the increased funding approved the previous year by the voters we were able to reconstruct more of our failing roads. The winter was also long and had many snow events that kept us going most of the winter as well.

To start the construction season we took the first step in rebuilding the road network in the Lowell Road Industrial Park in an effort to attract more business to the town. The first road targeted, and the worst in the park, was Flagstone Drive. During the project all of the drainage on the street was completely replaced. We then reclaimed the existing pavement to reuse as a suitable base. The road was then repaved and had new curbing installed. This work in the park will be an annual project until the park is completed, as long as funding is approved.

The most visible and largest single reclaiming project we have done to date was the completion of Robinson Road. After updating the drainage on the road, we reclaimed and then repaved, binder and top coat, two miles of the road from Boyd Road to the intersection of Lawrence Road. While in the area we also reclaimed and repaved the parking lot of the Robinson Road Fire Station.

Other roads in town that we reclaimed and repaved after replacing the sewer and/or drainage included David Drive, Deerfield Street, Brookfield Drive, Gibson Road and Bridle Bridge Road. With funding from the Town of Windham we were able to carry the new pavement on Bridle Bridge Road into the Windham section of the road that was badly needed. We also were able to widen Gibson Road to a much safer width. Deerfield Road and Brookfield Drive also had 4,000 feet of curbing replaced.

Some roads were simply overlaid with a top coat this year. These streets were all reclaimed in previous years. They include Hurley Street, Winnhaven Drive and Wyeth Street. Chase Street, a section of School Street and a section of Lowell Road by the Sagamore Bridge had the existing pavement milled off and repaved. The sewer lines were replaced on Chase Street prior to the paving work.

In total, we either reclaimed or milled off 65,000 square yards of existing pavement in town this year. We also placed just over 10,178 tons of new asphalt.

Maintaining the town's sewerage pumping stations is also our responsibility. This year we improved one of our old stations on Industrial Drive. This included adding a new industrial grinder and replacing the spiral stair case into the wet well. We are also kept busy constantly cleaning and flushing all of existing sewer and drain lines to eliminate backups. We also routinely clean over 2,500 catch basins.

In the late fall we were tasked with the cleanup of an old uncapped landfill in Benson Park. We did this work for the New Hampshire Department of Transportation in exchange for the town's ability to locate the new Senior Center/HCTV Facility in the park. This work saved the town \$80,000 that they would have had to pay the State of New Hampshire. We had three years to complete this project but completed it in less than a year. We were also involved in the site work at the Senior Center doing much of the hauling of material to and from the site.

One large project completed in Benson Park this year was the construction of the overlook above the 9/11 Memorial. This was the site of the old red barn that had burnt down many years ago. We eliminated this eye sore by clearing and grubbing the area and then filling and eventually landscaping the now gentle slope.

My department also oversees the solid waste and recycling contract in town. We are very proud of this program as it has saved millions in tax payers' dollars since its inception. This year we recycled 27.71% of our solid waste, at a savings of \$167,938.

Snow removal is one of our most visible jobs. We had a very long hard winter on not only the men and the equipment, but also the snow removal budget. I am extremely proud of the men who perform this difficult task working extremely long hours. All of the snow removal on town roads is done by our men and trucks. None of it is hired out. They do a fantastic job every year.

As for new equipment purchased this year, we were budgeted for none. We were forced however to replace our very old skid steer with a new one. This you will routinely see snow blowing the sidewalks around the schools and the center of the town.

A project that is time consuming and very visible that I never seem to mention in my report is the effort my department puts into the annual Christmas display in the town center. I think my men do a wonderful job with this annual tradition every year. It always looks fantastic and I receive many compliments from people who appreciate it, many from outside of Hudson.

Many recurring annual jobs have also kept the Highway Department busy. These tasks include but are not limited to brush and tree removal, pavement markings, street patching, the landscaping of parks and cemeteries, lawn care, litter removal, installation and repair traffic lights, road shoulder maintenance, roadside mowing, equipment maintenance, sign installation and repair.

We had two long term and dedicated employees retire this year, Tim Lamper, 27 years of service, and Priscilla Zakos, 26 years of service. Both did a wonderful job for me over their long careers.

In closing, I want to thank all members of the Highway Department for their hard work and dedication during this difficult year. I also wish to thank the Board of Selectmen, Budget Committee, Town Administrator, my fellow Department Heads, and you the citizens of Hudson, for your continued support.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'K. Burns', written in a cursive style.

Kevin Burns
Road Agent

TOWN OF HUDSON

Information Technology Department

Annual Report for 2014

Introduction

I am proud of my team's ability to meet the many challenges that back-to-back default budgets and additional workload brought us this year. IT Specialists Vin Guarino and John Beike were instrumental in managing 100% up-time for our Police and Fire public safety functions, as well as crucial services on a shoe-string budget. The Information Technology (IT) Department continues to be dedicated to delivering accurate, timely, and secure information through computer systems for our customers. However, innovation has been difficult while still working from 2012 funding levels. Software leases and maintenance continue to increase and we've met those contractual obligations by foregoing hardware replacements and proactive upgrades where possible. Workstation replacement cycles continued to be pushed out from 4 and 5 years to 6 and 7. This is not a recommended trend and I'm hopeful that the citizens will approve the FY16 operating budget in March 2015.

Department Responsibilities

The IT Department is responsible for supporting approximately 250 users: employees, volunteers and elected members and guests who use Town resources. We maintain telephony and other technology within 12 Town-owned buildings, 7 remote sites, two 24/7 dispatch centers, and the Emergency Operation Center. We are responsible for the procurement, management, and replacement of Town-wide hardware, software and phone systems, with system security, emergency services, and data backup and disaster recovery being some of our most important responsibilities. We are on call 24/7 to keep our public safety technology accessible.

Important Improvements in the upcoming budget

Our practice is to replace or upgrade systems using a conservative replacement cycle before degrading equipment becomes a public safety concern. Part of the Fiscal Year 2016 budget that residents have an opportunity to pass this March, 2015, includes one replacement phone system, the cost of which is offset 50% by Capital Reserve funds. Both Police and Fire Dispatch center phone systems are in need of replacement. We are asking for and appreciate the voters' support of this important piece of public safety equipment.

Closing

The IT Department is driven by a commitment to improve citizen access to Town government information and services, maximize the productivity of Town employees, keep long-term operating costs stable, and remain proactive for superior services. I would like to extend my appreciation to the Board of Selectmen, IT Liaison Pat Nichols, Town Administrator Steve Malizia, Budget Committee and Department Heads for their support of our goals. I would also like to thank the residents; their input and suggestions for improvements or added information on the Town's web site is always welcome and it's a pleasure to hear from them.

Respectfully submitted,

Lisa Nute
Information Technology Director

MUNICIPAL UTILITY COMMITTEE REPORT 2014

The Board of Selectmen created the Municipal Utility Committee in 2013 by combining the duties of the Water Utility and Sewer Utility Committees. The Committee is comprised of seven members plus one alternate member appointed by the Selectmen. Each term of office is for three years

The Committee is responsible for overseeing the preparations of bylaws, policies and procedures related to the operation of the Water and Sewer Utilities and making recommendations to the Board of Selectmen regarding the budget, operations, administrations and capital improvements of the Utilities.

During 2014, the staff continued working to reduce the overdue fees owed to the Water Utility by its customers and enforcing the termination of service for non-payment. This has helped the Utility maintain its level of service without a rate increase. There has been a major reduction in the number of services terminated for lack of payment since the new policy was implemented. The staff works with those customers who are having difficulty in making payments and termination of service is only used as a last resort when all other efforts have failed. The staff continued to investigate sites for new well sites, located within the Town of Hudson. These sites will enable us to better protect the recharge areas. Additional wells will also allow the Town to reduce the amount of water that is purchased from Pennichuck Water Works. The staff is continuing the work on the sewer system to replace old leaking mains and working with the City of Nashua on the expansion of the sewer treatment plant. The Committee continues to hear appeals by customers for abatements to their utility bills for various reasons. After reviewing the application for abatement, a recommendation is sent to the Board of Selectmen for final action. If requested the Committee will also meet with the customer to discuss the reason for the request

Staff support for the Committee is provided by Gary Webster, Civil Engineer, Donna Staffier-Sommers, Administration Aide and Valerie Marquez, Water Utility Clerk. The Committee would like to thank all of these individuals for their assistance. The Committee looks forward to working with Elvis Dhima, the new Town Engineer. The Committee would also thank former member Leo Bernard for his many years of service.

Committee members for 2014 include:

Jeff Rider, Chairman
Bill Abbott, Vice-Chairman
Bernie Manor, Member

Robert Russell, Member
David Shaw, Member
Nancy Brucker, Selectmen Liaison

Respectfully submitted,
Municipal Utility Committee

Jeff Rider
Chairman

Value Yesterday. Enhance Tomorrow. Plan Today.

In a region with a long and storied history, the Nashua Regional Planning Commission strives to honor the past and preserve its historic traditions while working to make the region the best possible place to live, work, and play both today and for the benefit of future generations. The NRPC provides comprehensive planning services for local land use, transportation, and environmental planning efforts, and delivers extensive mapping and data assistance utilizing the latest technologies.

Membership in NRPC allows communities to access customized services by request as well as resources such as:

- **Transportation Planning:** Grant writings, custom traffic counts and data, transportation modeling, intersection analysis, road safety audits, road surface management system, parking studies.
- **Land Use Planning:** Customized land use board training and materials, draft ordinance and regulation review, special projects and research assistance, fact sheets, guidebooks and educational resources, master plan consultation, and project scoping.
- **Data and GIS Mapping:** Demographic data and analysis, mapping data and standard map sets, GIS community needs assessments, production of annual tax maps and NRPC Live Maps.
- **Environment and Energy:** Group energy purchase for municipal and school facilities, consultation for local Energy Committees, MS4 Permit coordination, household hazardous waste collections.

In 2014, NRPC launched our new website at www.nashuarpc.org. The site is intuitive to navigate and information is easier to find. It promotes understanding about NRPC: our mission, our services, and the value we provide. The site contains a wealth of data resources presented in a modern, creative, and interactive manner to meet the evolving expectations of our communities. For each of our core planning areas, Transportation, Land Use Planning, GIS, and Environment, there are pages that summarize our service offerings with illustrative work examples. In addition, there is a transportation data viewer, a searchable Document Library and new flagship application called Live Maps that allows users to create their own parcel level maps.

For questions regarding NRPC services, please contact Kerrie Diers, Executive Director, at 424-2240 or at kerried@nashuarpc.org.

In 2014, NRPC provided the following services to the Town of Hudson:

TRANSPORTATION

Traffic Data Collection – NRPC collected traffic counts at 15 locations within Hudson. These counts were collected in cooperation with NH Department of Transportation to support the Highway Performance Monitoring System. The data that was collected included total traffic volume at all 15 locations, and vehicle classification at 1 location. NRPC staff has also collected data at other locations in recent years to support various town requests. Historical data for all locations may be found at <http://www.nashuarpc.org/trafficcount/index.htm>.

Transportation Improvement Program (TIP) – NRPC develops and maintains the TIP so that federal highway transportation dollars are available to Hudson and the rest of the region. Throughout 2014, NRPC carefully monitored the status of Hudson projects in the TIP to ensure that project information and changes initiated by NHDOT were communicated to the Town planning and community development staff. These include:

- NH 111/Library Street: Upgrade three sets of traffic lights that control traffic at the convergence of three main corridors in Hudson: NH 111, NH 3A, and NH 102. NRPC Staff worked with the town and consultant team to coordinate these improvements with the proposed roundabout in Nashua on the west side of the Taylor Falls Bridge.
- Historic Train Depot: Relocation and restoration of the former Hudson Center train depot. Part of the Worcester, Nashua, & Portland Railroad built in 1873.

2015-2040 Metropolitan Transportation Plan (MTP) - NRPC develops and maintains the MTP so that federally funded and regionally significant transportation projects can be advanced towards design and construction. The MTP lists multimodal projects over a 25-year planning horizon and is the source from which specific projects are identified, prioritized and selected for funding through the Ten Year Plan and TIP. This is a critical step to ensure federal highway transportation dollars are available to Hudson and the rest of the region. NRPC is working to advance several projects through the transportation planning process to support Hudson. These include:

- Add a right turn lane on Rte. 3A/Lowell Rd. southbound from Flagstone Drive to the westbound ramp on Sagamore Bridge Rd.
- Continue Sidewalk on 3A/Lowell Rd. from Birch St. to Pelham Rd.
- Continue Sidewalk on 3A/Lowell Rd. from Nottingham Square to Executive Dr.
- Continue Pedestrian/Bike Lane on Derry St/Rte. 102. from Towhee Dr. to Megan Dr.
- Continue Pedestrian/Bike Lane on Derry St/Rte. 102. from Phillips Dr. to the Hudson Mall.
- Construct a northern crossing of the Merrimack River to provide a four lane roadway connecting NH 102 in Hudson, NH, 3A in Litchfield and US 3 in Nashua. Exact location of crossing to be determined.
- Construct a two lane controlled access roadway between NH 3A and NH 111.

GEOGRAPHIC INFORMATION SYSTEMS (GIS)

Data Services – NRPC continues to maintain an authoritative digital GIS basemap for the region including zoning boundaries, road network, parcels, building footprints, and conserved lands. In 2014 NRPC accommodated the Town of Hudson with an export of our GIS database to support the town's GIS initiatives, and also provided on-site GIS planning assistance with respect to GIS workflows and next steps to support tax maps on a GIS platform. NRPC continues to support the mapping of Musquash trails and trail mapping in general for the region.

Custom Hard-Copy Maps – NRPC continues to provide many maps to the Town of Hudson. In 2014 NRPC updated our standard Zoning Map for Hudson and made a customized version with a street listing. These were provided in pdf and hard-copy glossy. NRPC also updated a large-format map series of Police Sectors to Hudson PD/Dispatch, and provided the Captain with a new street map. NRPC also completed a town-owned properties map for the Hudson Assessing department.

Applications – MapGeo, NRPC's award-winning Live Maps App, is a public-facing resource for property information in the region, including Hudson. NRPC's Transportation Data Viewer hosts the most up-to-date traffic counts and transportation project information, in an easy-to-use Google Interface

Training and Workshops – In 2014 NRPC hosted the free, instructor-led classroom training, "Introduction to ArcGIS Desktop with Thematic Mapping." Several Hudson staff attended this training. We also continued the quarterly GIS Brownbag Lunch Series, an informal knowledge-exchange among GIS users in the region. Geared towards municipal GIS users and open to the public, each meeting features general news and announcements, followed by a guest speaker or open group discussion on a particular GIS project or topic. Lastly,
