

**PORTIONS OF ROBINSON POND TO BE TREATED ON  
TUESDAY, JULY 7, 2026 @ ~10:00 AM**

# **WARNING**

**THESE WATERS HAVE BEEN CHEMICALLY TREATED WITH PROCELLACOR EC HERBICIDE (active ingredient Florpyrauxifen-benzyl) TO CONTROL THE GROWTH OF NON-NATIVE AQUATIC VEGETATION**

The following temporary water use restrictions will be imposed on the day of treatment:

- No swimming for **6 hours** following treatment, within 200 feet of treated areas
- There are no drinking or domestic use restrictions
- Turf / established grass may be irrigated immediately after treatment
- Do not use this water for any residential or non-agricultural irrigation (such as shoreline property use for irrigation of residential landscape plants and homeowner gardens, golf course irrigation, and non-residential property irrigation around business or industrial properties) until further notice or a maximum of 7 days. Treated water shall not be used for greenhouse or nursery irrigation until further notice. These restrictions apply to all intakes within 200 feet of the treatment area, and to all wells within 50 feet of shoreline that itself is within 200 feet of a treatment area. Contact Pete Beisler at SÖLitude Lake Management, 590 Lake Street, Shrewsbury, MA 01545, Telephone 508-865-1000, email [NewHampshire@SolitudeLake.com](mailto:NewHampshire@SolitudeLake.com) for additional information on the irrigation restrictions.

LAKE MANAGEMENT

All persons are reminded that no weed killers or other pesticides may be applied to any surface waters in this state without a special permit issued by the NH Division of Pesticide Control. Furthermore, no weed killers, insecticides, nor other pesticides may be applied on land within 25 feet of the shoreline of any surface water. Any such applications would be in violation of the Administrative Rules of the Pesticide Control Board, and may result in substantial penalty.
