

Before we begin the public input portion of the agenda, I am making a brief statement as the Chairman in regards to RSA 32 and the currently adopted Hudson NH budget committee bylaws:

- After review of RSA 32, Municipal Budget Law, I find no language in that specific RSA that describes the budget committee being empowered to have discussions or debate in a negative way related to any person's public or private service as an elected or appointed committee or board member, Town or School employee and especially as a resident. The budget committee will not be leveraged in any way as a means to demean, discredit or bad-mouth anyone and committee members must adhere to RSA 32 in full as it relates to the budget committees intended purpose.**
- Any future negative comments made by any budget committee member will be immediately addressed by the Chair and managed under Section VII, Conduct of Meetings, within the currently adopted bylaws.**
- If a committee member does not comply with the Chair's out of order request to stop their unruly behavior after two attempts, the meeting will be adjourned by the Chairman or the member will be directed to immediately leave the meeting.**
