#### **1. PRE-BID MEETING**

The April 24, 2023 mandatory pre-bid meeting was attended by one contractor, Continental Paving.

Following are notes from that meeting:

- The Town owned area at the east end of Sagamore Park Drive will be made available for the contractor to use for material and equipment storage. It's unlikely that a trailer will be required.
- Limited Reuse Soils (LRS) were discussed.
- The intent is for this project to precede the Target roadway and signal improvements and at this time there are no modifications necessary to the plans for this project.
- The standard hours of operation are 7:00 a.m. to 7:00 p.m. but the Town will be flexible. Sundays may be allowed.

- This is an LPA project with federal funding which requires extensive record keeping. Fuss & O’Neil will be performing the resident engineering services.
- The Town will work with the utilities to confirm power supply locations to the light poles that the contractor will set on new bases.
- The landscaping item was discussed and the work was described to include repairing the impacted landscaped mounds along Lowell Road. The unit of measure will be Unit.

**2. CONTRACTOR QUESTIONS AND TOWN/VHB RESPONSES:**

The following responses are provided to contractor questions.

**Question:** *It looks like the widened section of Lowell Rd gets paved with binder (only paving item) up to existing pavement grade? There is no overlay of the existing lanes? The paving details show a ½” surface course (403.11943) but that item is not in your list of bid items.*

**Responses:** Per the typical sections, surface course is included. Overlay of the existing lanes is not included.

The surface course item is shown on the quantity summary sheet on plan sheet 4 but was inadvertently omitted from the bid form. It should be included as shown here. A new Schedule of Prices is attached with this Addendum and shall be completed and submitted in lieu of the one in the original bid documents.

403.1194	HBP-1/2" SURFACE MIX, MACHINE METHOD, HIGH STRENGTH	TON	171	\$ _____	\$ _____
	_____ Dollars				
	and _____ Cents				

**Question:** *At the Wason Rd. intersection, existing crosswalk markings are removed, and new thermoplastic markings are applied on existing pavement?*

**Response:** Correct.

**Question:** *What is the location of the Traffic Sign Type B Relocation? (Item 615.024)*

**Response:** From STA 2+38 to STA 2+37 as shown on Sheet 26.

**Question:** *What is the business sign to be relocated under item 615.072?*

**Response:** From STA 77+47 to STA 77+45
