#4 - To revise the Home Occupation Special Exception to allow outdoor play areas for daycare as required by the State of New Hampshire.

§ 334-24 Home occupations.

[Amended 3-13-2007 by Amdt. No. 3; 3-10-2009 by Amdt. No. 3]

Home occupations are defined by the Zoning Ordinance as "any activity carried out for gain by a resident in their dwelling unit, and such activity is a secondary use to the residence." The intent of providing a home occupation special exception is to allow for growth and development of a small in-home business while maintaining the character of residential areas. The applicant acknowledges that if the business grows and no longer meets the listed requirements, the business shall be moved to an appropriately zoned location such as Business, General or Industrial. Home occupations which include sales or service operations for wholesale goods produced or services provided on-site shall be permitted only as a special exception. The Zoning Board of Adjustment must find any such home occupation application to be in full compliance with the following requirements prior to approval of such special exception:

- A. The home occupation shall be secondary to the principal use of the home as the business owner's residence.
- B. The home occupation shall be conducted only by the residents of the dwelling who reside on the premises. If the applicant is the owner, the owner must sign an affidavit, stating he/she is the owner, and the residents of the dwelling are the only individuals conducting the activities associated with the home occupation. Said affidavit shall also state that the owner is responsible for any violations of this chapter. If the applicant is a renter, the owner of the dwelling must sign an affidavit, stating he/she is the owner, and shall acknowledge that the home occupation for the premises shall only be conducted by the current renter(s), who shall be identified on the application. The owner shall also acknowledge that he/she, as the owner of the dwelling, is responsible for any violations of this chapter conducted at said dwelling. Approval of the home occupation special exception expires with the change of ownership of the property or the rental agreement in effect at the time the home occupation special exception was granted. The home occupation special exception is conditional on the residents of the dwelling and not on the property.
- C. There shall be no employees or "for hire" staff conducting the home occupation activities, unless the employee(s) also resides on the premises.
- D. **With the exception of daycare businesses, which are allowed to have outdoor activity, the** home occupation business shall be carried out within the residence and/or within a structure accessory to the residence, such as a garage.
