

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Availability of Monitoring Data for Unregulated Contaminants

Public Water System Name: Hudson Water Department PWS ID: 1201010

Our water system has sampled for a series of unregulated contaminants. Unregulated contaminants are those that don't yet have a drinking water standard set by EPA. The purpose of monitoring for these contaminants is to help EPA decide whether the contaminants should have a standard. As our customers, you have a right to know that these data are available. If you are interested in examining the results, they are now available at the following location: www.epa.gov/dwucmr/occurrence-data-unregulated-contaminant-monitoring-rule.

What should I do? It is not necessary to use alternate water; however, if you have specific health concerns, please contact your health care professional. General questions can be directed to dwengineering@des.nh.gov. For information about exposure, risk and reducing risk related to environmental exposures, you can also contact the NHDES Environmental Health Program by calling [\(603\) 271-6802](tel:6032716802). Information about the UCMR requirements can be found at www.epa.gov/dwucmr/learn-about-unregulated-contaminant-monitoring-rule.

Steps being taken to correct the situation:

Hudson will continue to sample UCMR data as required by EPA and report availability of results.

Contact Name: <u>Adam Bertrand</u>	Expected Resolution Date: <u>N/A</u>
Address: <u>4 Candy Lane, Hudson, NH 03051</u>	Company: <u>WhiteWater, Inc.</u>
	Telephone Number: <u>603-324-8318</u>

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example; people in apartments, nursing homes, schools and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
